TECH ELECTRONICS

Your Partners in School Safety Communications

Tech Electronics: Supporting K-12 Schools for over 60 years

Tech Electronics supports schools and districts across the Midwest by designing, installing, and maintaining integrated building technologies that create safe and effective learning environments. **Our expertise spans Fire & Life Safety, Security, Communication, and Audio-Visual systems.**

As a **CareHawk Gold Level Partner and a Partner Alliance for Safer Schools (PASS) partner**, Tech Electronics brings deep technical expertise and education-specific experience to every project.

Our team, comprised of **100+ IBEW factory-trained technicians/inspectors**, technology specialists, engineers, and project managers, serves our customers as a single, trusted partner who understands each facility, simplifies vendor management, and helps ensure systems remain reliable, compliant, and future-ready.

20 Years. 10,000+ Installs. Trusted by K-12 Districts.

For 20 years, **CareHawk Life Safety Communications** has partnered with schools and districts to deliver dependable, purpose-built communication solutions.

Districts choose CareHawk for proven reliability, long- term support, and scalable systems designed for daily operations and critical incidents—**trusted with more than 10,000 installations across North America** and sustained by partnerships with the highest calibre integrators, including Tech Electronics.
