

A Partner You Can Trust For Fire & Life Safety Monitoring

Monitoring Plans

In critical moments, every second counts. That's why Tech Electronics provides UL-listed fire & life safety monitoring through a fully staffed central station, offering compliance and reliable protection 24/7. Our operators are SIA and CSAA certified giving you peace of mind that any situation will be taken care of swiftly and effectively.

What's Included

- **24/7/365 UL-Listed Monitoring**— Around-the-clock supervision for your systems.
- **Rapid Emergency Notification**— Immediate response from certified operators and coordination with first responders.
- **System Health Checks**— Ongoing diagnostics to ensure your system is operational and connected.
- **Flexible, Budget-Friendly Plans**— Scalable packages designed to match your needs and resources.
- **Detailed Compliance Reporting**— Support for NFPA and local code requirements.

Discover how we enhanced reliability for a St. Louis school on our [blog](#).

With 60+ years of industry experience and trusted by hundreds of organizations across the Midwest, our experts will keep you connected, compliant, and emergency-ready. Whether you're safeguarding a small facility or a large, multi-site operation, we offer flexible monitoring plans that match your needs and budget—delivering the peace of mind you deserve.
