

Free Carrier Analysis & Audit

Uncover funding to pay for new projects

Overview

Our **Carrier Analysis & Audit** helps organizations uncover funding opportunities by **identifying unused lines, services, and fees**. Through a thorough review of your telecom expenses, we provide a **clear path to reduce costs and modernize communication systems**.

Key Benefits

- Identify and eliminate unused phone lines and services
- Call every number to confirm active status
- Work with carriers to cancel outdated services and recover potential credits
- Compare on-premise costs vs. modern cloud-based solutions
- Reduce unnecessary spending and reallocate funds to new projects

Sample Analysis:

Below is a sample Carrier Analysis conducted for an elementary school in Kansas City, MO. The report findings include billing details for an inactive phone line and identified cost-saving of \$380.77 per month.

Bill Date- 03/03/2024					
CSR Date- 03/29/2024					
Contract Expiration Date - None - Month to Month		Includes:			
		Line, Unlimited Local Calls, Caller ID Name and Caller ID Number			
XXX Elementary		\$290.00	\$12.17	\$3.00	
	Dial Results	Business Local Calling Unlimited B Line	Federal SubscriberLine Charge	Long Distance Calling Plan	
XXX-XXX-XXXX	ring then silence	1	1	1	
		1	1	1	
		\$290.00	\$12.17	\$3.00	Total: \$305.17
Taxes, Fees and Surcharges- \$81.27	Note: Federal/State/Local taxes of \$39.88/month erroneously charged. District needs to send provider their tax exempt certificates and apply for removal and credits.				
Total Current Charges- \$380.77
