

# Better Partnership. Better Projects.

Your Technology Partner from Bid to Closeout

Tech Electronics works alongside Electrical Contractors to simplify complex technology scopes, reduce project risk, and help deliver successful projects on time and on budget. From estimating and scope review through installation and commissioning, our team brings the expertise and support you need throughout the project lifecycle.

## Your Partner from Bid to Closeout

### Budgeting & Estimating

Evaluate technology scope, develop budgets, and provide accurate pricing during bidding and preconstruction.

### Scope Review

Identify system requirements, potential scope gaps, infrastructure needs, and coordination responsibilities before work begins.

### Technical & Engineering Support

Provide system expertise, engineering, submittals, and manufacturer-specific technical support throughout the project.

### Project Coordination

Coordinate pathways, power, interfaces, schedules, and system requirements with your team and other trades.

### Installation & Programming

Provide the technical expertise, programming, and installation support needed to deliver a successful project. When preferred, Tech can also provide installation services, while our parts-and-smarts approach helps Electrical Contractors keep more installation scope and margin in-house.

### Submittals, Commissioning & Closeout

Support product submittals, technical documentation, system commissioning, training, inspections, and project closeout requirements from project award through completion.

## Why Electrical Contractors Partner with Tech:

One Partner. Multiple Technology Scopes.

Stronger Bids from the Start.

Specialized Technical Expertise.

Fewer Surprises in the Field.

Reliable Project Execution.

Testing & Commissioning Support

## Have a Project to Bid?

Whether you're bidding an upcoming project or need budget pricing for a technology scope, Tech can review the requirements, provide a competitive number, and help you understand what it will take to deliver the work successfully.
